

Welcome from the Dean

Dr. Horváth Béla Professor, Dean

Our Faculty is the only institute of higher education in Tolna County, thus it has the role of defining regional academic orientation while being both inservice and preservice training centre. Our mission is to meet the educational demand of the region in the light of social and economic requirements. We train well-qualified, top-notch intellectuals, who are masters of their skills. Our objective is to provide students with practical and convertible knowledge that is essential in their personal career, while their achievement contributes to regional and national success and well-being.

This institute is one of the faculties of the University of Pecs, our students belong the community of one of the largest universities of the country. Thus they can share and contribute to the common knowledge offered by the first university of the country in ten different faculties, in twenty different doctoral schools. Students have access to the infrastructure of the university, such as the rich library belonging to the South Transdanubial Regional Library and Knowledge Center. Our students take part in the cultural programmes and sport events organized by the University Student Body. The Pecs Janus University Theatre also has its performances in Szekszárd.
